Practical 2: CSS

1. Design the homepage of google using CSS.

2. Write a CSS program to float an image to the right as shown below.

Coffee is a brewed drink with a distinct aroma and flavor, prepared from roasted coffee beans, the seeds found inside "berries" of the Coffea plant. Coffee plants are cultivated in over 70 countries, primarily in equatorial Latin America, Southeast Asia, India and Africa. The two most commonly grown are the highly regarded arabica, and the less sophisticated but stronger and more hardy robusta. The latter is resistant to the coffee leaf rust, Hemileia vastatrix, but has a more bitter taste. Once ripe, coffee beans are picked, processed, and dried. Green (unroasted) coffee beans are one of the most traded agricultural commodities in the world. Once traded, the beans are roasted to varying degrees, depending on the desired flavor, before being ground and brewed to create coffee. Coffee is slightly acidic and can have a stimulating effect on humans because of its caffeine content. It is one of the most popular drinks in the world. It can be prepared and presented in a variety of ways. The effect of coffee on human health has been a subject of many studies; however, results have varied in terms of coffee's relative benefit. The majority of recent research suggests that moderate coffee consumption is benign or mildly beneficial in healthy adults. However, the diterpenes in coffee may increase the risk of heart disease.

2.a. Create a personal Webpage that must consist of three pages.The first page gives your personal details. The second page should be about your interests and hobbies and the third page about your friends. The pages must be linked with each other using image hyperlinks and text hyperlinks.(Usage of table, image, text formatting tags mandatory)

b. Apply CSS Properties for the above.

3 a.Imagine you are a course instructor for a course that is given online. Create a course tutorial page that contains tutorial pages.(Usage of image, Lists(OL,UL and DL) mandatory)

b. Apply CSS Properties for the above.
